**MONUMENTS.****The White Bronze Monument,**

beautiful in design, appropriate in color, never tarnishes, chips or cracks, and science in its long search for something that would stand the frost of this climate for monumental purposes has at last found it in the White Bronze. It fills every wish. It is a beauty to behold. It will perpetuate the memory of loved ones, that future generations may bestow those little acts of kindness upon the graves after we have gone to our reward.

**"The 'Sitting Waltz.'"**

We clipped the following from an exchange which will likely be good news to the young folks.

"The young people of Kentucky who indulge in the dizzy waltz will hear with interest that the heads of Washington and New York society have decided that 'sitting out' a waltz next winter will be more fashionable than dancing. The 'sitting waltz' embodies the position as dancing—the only difference is you sit instead of dance. The man's right arm is around the girl's waist while his left hand holds her right. Her left hand is placed on his shoulder while her head rests lovingly upon his bosom and all they do is to listen to the music. Now that is something like it. We have always regarded it as a kind of nuisance to have to gallop a mile or two. A room full of people sitting around on sofas hugging to music is more to our notion. This will give the old rheumatically brethren another chance to waltz. Most men waltz, not for the dance, but for the position, and while a man may lose his appetite for dancing, he has got to get pretty old before he loses his appetite for hugging a pretty girl."
